

# EARTHQUAKE RESEARCH IN CHINA

CONTENTS

Volume 34, Number 4, 2020

---

Preface to the Special Issue on Loess Landslides

*WANG Lanmin, XU Chong, CAO Yanbo and XU Yueren* ..... (465)

## **【Landslide Mechanism】**

Flow Characteristics of Large-Scale Liquefaction-Slip of the Loess Strata in Shibeit Tableland, Guyuan City, Induced by the 1920 Haiyuan  $M8\frac{1}{2}$  Earthquake

*MA Xingyu, WANG Lanmin, WANG Qian, WANG Ping, ZHONG Xiumei, PU Xiaowu, LIU Fuqiang and XU Xiaowei* ..... (469)

Dynamic Response of Double-Sided Loess Slope under Vehicle Load

*LI Peng, YANG Hucheng, SU Shengrui and LIU Xiang* ..... (482)

Dynamic Response of Shallow-Buried Tunnels Traversing High Loess Slopes

*SUN Wen, LIANG Qingguo, WANG Lili and CAO Xiaoping* ..... (496)

Early Identification of the Jiangdingya Landslide of Zhouqu Based on SBAS – InSAR Technology

*YU Haihua, CAI Guolin, GAN Quan and SHEN Dong* ..... (510)

## **【Landslide Mapping】**

Interpretation of the Spatial Distribution Characteristics of the Co-seismic Landslides Induced by the 1920 Haiyuan  $M8\frac{1}{2}$  Earthquake Using Remote Sensing Images

*ZHANG Weiheng, XU Yueren, DU Peng, LI Wenqiao, TIAN Qinjian and CHEN Lize*  
..... (523)

Relationship between the Landslides Triggered by the Tongwei  $M7\frac{1}{2}$  Earthquake in 1718 AD and the Disappearance of Yongning Ancient Town

*XU Yueren, DU Peng, LI Wenqiao, TIAN Qinjian and CHEN Lize* ..... (546)

Impact of the Rainfall Intensity and Seepage on Slope Stability in Loess Plateau

*ZHANG Yu, YANG Lixia, HAN Bingbing and WU Yajie* ..... (560)

**【Landslide Case Study】**

The Calculation Method for the Volume of Landslides and Dammed Lake Sediments triggered by a Strong Historical Earthquake in the Loess Plateau: A Case Study of Qiuzigou, Gansu Province, Northwest China

*DU Peng, XU Yueren, LI Wenqiao, TIAN Qinjian and CHEN Lize* ..... (580)

The Volume Calculation Method of Rock Collapses and Loess Landslides triggered by the 1556 AD Huaxian  $M8\frac{1}{2}$  Earthquake in Shaanxi Province, China

*ZHANG Yanbo, XU Yueren, DU Peng, LI Wenqiao, CHEN Lize and TIAN Qinjian* ...  
..... (599)
